

FOOD AND FEED SAFETY POLICY

"We accompany our partners with global competence and local sensitivity towards innovative choices, to formulate the future with reliable and sustainable ingredients and solutions"

FARAVELLI commits to supply:

- ▶ functional products, that fulfill the expectation of food and feed customers in terms of compliance with established requirements and technological function;
- ▶ innovative products, that allow customers to find new solutions for their applications through research and development;
- ▶ safe products, manufactured in establishments subject to self-monitoring and equipped with risk management measures;
- ▶ reliable products, obtained with raw materials purchased from suppliers qualified and managed in accordance with internationally recognized standards;
- ▶ products controlled by personnel trained in good practices and actively involved in the expression of food and feed safety culture;
- ▶ effective communication, using the necessary tools to ensure the proper dissemination of information to involved stakeholders.
