

QUALITY AND SAFETY POLICY

FARAVELLI has the objective to supply:

qualitative products

purchased from qualified suppliers
managed according to internationally-recognized
good trade and distribution practices

functional products

answering the needs of all fields of application
and accompanied by technical, safety-related, and regulatory information

safe products

manufactured in certified and authorized plants
according to the most advanced hygiene and safety standards
with respect for the environment

customer service

with tailor-made deliveries for industry needs
and technical and regulatory support with qualified personnel

ethical responsibility

with a Code of Ethics that regulates proper relationships
with customers, suppliers, and stakeholders
